

S+ MINI LIME WITH PLUG & PLAY

Existing S+ Mini Lime

- Power/Safety cable is hard wired into pump
- Installer wires pump assembly into power supply during installation/replacement
- Installer isolates pump assembly from supply during maintenance

New S+ Mini Lime with Plug & Play

- Power/Safety cable features a white P&P connector
- Installer wires cable assembly into power supply during installation – the same as existing S+ Mini Lime
- During maintenance, the installer isolates the pump from the power supply and simply disconnects the P&P connection to remove the pump
- During replacement, the installer can utilise the new cable portion wired into the power supply and simply connect to the replacement pump – no new wiring required
